PRESS RELEASE

# HOMINI – FORM AND DYNAMICS

**Thursday, March 10 at the Amy-d Arte Spazio in Milan** will see the inauguration of an art exhibition by the Boga Brothers.

"Homini – Form and Dynamics ". There will be eleven Homini, which represent the brothers' artistic vision.

Following in the style of Giacometti, resembling Surrealism, and also Expressionism, the sculptures of the "Homini" series in the collection '**When Idea Goes Beyond Expression**' by the Boga Brothers, represent man for what he is in his existence, as a witness of life, in his experience and in his memories.

The search for the fundamentals of FORM and DYNAMICS, which retains all of the constituents of vitality, energy and thaumaturgy, are ever-present in the works of the Boga Brothers.

The informal becomes the formal, identical but different, one step forward on the path of knowledge.

Art returns to thrill, it is tangible and accessible to all, with no ifs or buts.

The dynamic Homino in its immobility is alive.

The **Boga Brothers** are three artists who live in Tradate, in the province of Varese, and were born in Cesano Maderno.

Entrepreneurs and artists, they have since 1979 followed in the footsteps of their father, designing and creating furniture that is exported worldwide. They are also prolific collectors of works of art.

Their private collection includes sculptures by Rodin, Giacometti, Fontana, Marino Marini, Manzù and many others. They also have an art gallery with paintings from the 1500s to the present day.

With their artistic achievements, they have developed an actual movement entitled, '**When Idea Goes Beyond Expression**'. The movement was established in 1984 and its cornerstone is the superiority of the idea with respect to technical expression.
